- Training videos preloaded directly on scanner **NEW!**

Ideal system for bars, night clubs, member clubs or any business checking customer age while building customer relationships. Quickly reads and records IDs from all 50 US States*, Canada and Military IDs.

Offers many industry-first innovations to: visit counter for each customer, email and phone capture, custom tagging, searchable and editable database. All information can be easily exported to Excel.

Just plug in and swipe a license to begin verifying age and building customer relationships. Displays intuitive "OK/Not OK" icons for alcohol and tobacco, sounds talking alerts, and vibrates for simple operation. All features fully customizable for any application.
